PROJECTS

1. Sahayta Foundation

Aug 2024 –Jan 2025

College Minor Project

  - A full-stack NGO management platform built using React and Spring Boot, with MySQL as the database. Key features include admin product and event management, user login, wishlist, cart, and donation handling.
2. Chromaic (E-commerce Website + Admin Panel)

Feb 2025 – May 2025

Self-Initiated

  - A Gen Z-focused fashion e-commerce website with a custom admin dashboard. Built using React (Tailwind CSS), Node.js, Express, MongoDB, and Cloudinary. Users can browse, shop, and manage orders, while admins control products, categories, and analytics.
3. TalkSphere

Feb 2025 – Apr 2025

College Major Project

  - A real-time chat and meeting platform built using React, Tailwind CSS, Java, Spring Boot, WebSocket, and MySQL. Features include real-time messaging, dynamic room creation, friend requests (add/remove), profile updates (name and profile picture), and secure login/logout functionality.
4. CartNova

Apr 2025 – Jun 2025

Self-Initiated

  - A minimal and elegant furniture e-commerce site built with React and Tailwind CSS for the frontend, and Spring Boot with MySQL for the backend. Features include user authentication (login/logout), wishlist, cart, and order placement. The admin panel allows adding/managing products, categories, and viewing all orders and user management.

EDUCATION

Techno Main Salt Lake | 2022–2025

Bachelor of Computer Applications
